

System Type	System combination ¹	Power consumption in performance mode/W	Power consumption in energy saving mode/W
SigenStor EC SP Single phase system	1+1	46	11
	1+2	70	
	1+3	94	
	1+4	118	
	1+5	142	
	1+6	166	
SigenStor EC TP Three phase system	1+1	92	15.5
	1+2	116	
	1+3	140	
	1+4	164	
	1+5	188	
	1+6	212	

Table 1: Self-consumption value of SigenStor system in different combinations and modes

Product Type	Grid type	Standby power consumption/W
Sigen Hybrid Sigen PV Max	Single phase	3.5
	Three phase	4.5

Table 2: Standby power consumption of Sigen Hybrid Inverters and Sigen PV Inverters

1. 1+N, '1' is the inverter, N= the number of Sigen batteries (SigenStor BAT xx)
